

MUHAMMAD ALI

Full Stack Developer

muhammadali43800@gmail.com | +92 313 7149438 | Faisalabad | [LinkedIn](#)

Professional Summary

Highly skilled and results-driven React Developer specializing in React.js, Tailwind CSS, Firebase, Redux Toolkit, and Framer Motion. Adept at building modern, responsive, and performant front-end applications with seamless state management and smooth animations. Proficient in integrating Firebase for authentication, database, and storage solutions, ensuring secure and scalable applications. Known for creating user-friendly interfaces with engaging UI/UX, delivering projects that meet client expectations and drive customer satisfaction. Eager to contribute to dynamic teams, ship user-centric features, and continuously improve application performance and accessibility.

Top Achievements:

- Delivered React projects with excellent customer satisfaction, with great client feedback.
- Successfully integrated Firebase services (Authentication, Firestore) to enable secure and scalable app functionality.
- Implemented Redux Toolkit for efficient state management, ensuring optimized performance and maintainable codebases.
- Enhanced UI/UX by leveraging Framer Motion to create smooth, production-ready animations and micro-interactions.
- Built responsive, modern designs using Tailwind CSS, ensuring accessibility and cross-device compatibility.

Core Competences

- Frontend: React.js, Tailwind CSS, Framer Motion
- State Management: Redux Toolkit (RTK), Context API
- Database & Cloud: Firebase (Authentication, Firestore)
- Tools & Version Control: Git, GitHub, VS Code

Work Experience

Full-Stack Developer

09/2025 – present

Expert Tech

During my tenure at Expert Tech, I contributed to the development of modern web applications while working within a highly collaborative engineering team. This experience greatly strengthened my technical capabilities, particularly in Node.js, Express.js and React, and broadened my overall expertise. I participated in multiple end to end projects as a full stack developer, consistently delivering high quality solutions and advancing my professional skill set.

React Developer

06/2024 – 04/2025

Remote

Responsible for developing and maintaining modern web applications using React.js, focusing on reusable components, optimized state management, and responsive user interfaces. Integrated REST API, ensured application scalability, and maintained high code quality through testing and debugging.

- Collaborated with teams to deliver efficient, production-ready applications.
- Developed many React.js applications, achieving a good client satisfaction rate.
- Improved application performance through optimized rendering, state management, and code splitting.
- Use Tailwind for designing and Framer Motion for Animation.

Education

Bachelor in Computer Science

October 2020 – June 2024

RIPHAH International University

- BSCS

Intermediate in Computer Science

March 2018 – July 2020

Punjab College

- ICS

Internship

React.js – Zainab Center

09/2024 – 11/2024

- Contributed to the development of modern, responsive web applications using React.js.
- Built and optimized reusable components, improving code maintainability and development efficiency.
- Integrated REST APIs to enable dynamic data rendering and smooth user interactions.
- Worked with Redux Toolkit and Context API for efficient state management across applications.
- Enhanced application performance through lazy loading, code splitting, and optimized rendering logic.
- Collaborated with senior developers to implement new features, troubleshoot issues, and follow best practices.
- Gained hands-on experience in UI/UX improvements, debugging, and Git/GitHub version control.

Projects

- Switchboard Cloud

- Flavro(React Js)
- PersonalPortfolio (React + email js)
- E_Shop(React + ReduxToolkit + Tailwind)
- SwitchBoard Supply Chain Project
- ManaAdsPlay
- Portfolio Design
- Switchboard
